Year 5
Homework Autumn 1

Homework set is not optional - it must be completed each week.
Homework Guide

You should complete both the literacy and numeracy task for each week.

Please complete each piece of homework in your homework book, unless told otherwise by your teacher.

You should be spending at least 40 minutes on your homework each week. In addition you should practise your spellings and times tables, as well as reading at least four times a week.

Please ask a parent to check your homework and sign your book each week when they are happy with the work you have produced.

Please speak to your class teacher before the homework is due if you do not understand a piece of homework. Asking for help on the day that your homework is due is not acceptable. If homework is not returned, you will have to stay in at lunch time and return the homework on the following day.
